

GREEN CANVAS

GOOD FOR THE EARTH

15th July, 2020

Re: Internship Certificate for Mr. Vikrant Gurav

I have known Vikrant Gurav professionally through the summer of 2020. Vikrant was hired as a technical web development intern for Green Canvas. He has helped us in overcoming multiple technological challenges in building an e-commerce website and also maintaining it.

During his time at Green Canvas, Vikrant showed abilities and motivation that I would classify as exemplary. He is rather inquisitive and his application towards work was rewarding for our company. He demonstrated strong technical knowledge of building an entire commercial website for our company and also guided us with frontend and backend development of the code as well as site improvement and the eventual deployment of the new and revised application across our existing technology stack. He has been an important part of our company.

I would classify Vikrant Gurav's abilities to organize and express himself clearly as outstanding, as judged from his work and deliverables. Lastly and most importantly, Vikrant has a curious mind and I would encourage his advisors, teachers and future influencers to let him discover, deliberate and dream beyond his known horizons.

Regards,

Niranjan Samant
